Torque – ft-lbs.....	3,600

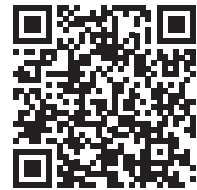

When you step up to the HF-300 cone splitter, you're getting all day splitting capacity of 12 foot long wood material!

HF-300 Hands Free Cone Screw Log Splitter

US Pride built the H.F. 300 cone log splitter for large skidsteers, but it has also been mounted on mini excavators and small front end loaders. Splitting power is tremendous at this level. Twelve foot long logs are no match for this splitter. With a robust output shaft and cone, it can handle logs all day. If you need all day splitting capability in a higher production environment, the H.F. 300 is a great choice!

Commonly Used By:

- High Volume Firewood Processors
- Mulch Producers (Large)
- Small Land Clearing Companies
