CONE SCREW SPLITTERS

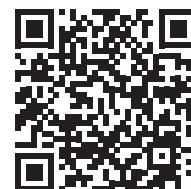

www.USPrideProducts.com

HF-800 - 2 SPEED SPLITTER

Specifications: HF-800 - 2 SPD

Splitter Weight – lbs.....	1,750
Cone Size – length x base.....	32 x 16
Max Split Size	Unlimited
Oil Quantity – gpm.....	30 - 60
Oil Pressure – PSI.....	3,400 – 5,000
Carrier Weight – lbs	7,000 – 70,000
Torque – ft-lbs.....	15,000

The HF-800 - 2 Speed splitter is perfect for carriers that don't have as much hydraulic flow as needed for our standard HF-800 (single speed)

HF-800 - 2 Speed Hands Free Cone Screw Log Splitter

The HF-800 2 Speed model is essentially the same as the HF-800 with the addition of a 2 speed motor. This allows the splitter to automatically shift between speeds as needed. Some large skid loaders, and other machines, don't always have enough hydraulic flow to turn the single speed HF-800 efficiently in tough material. By utilizing a 2 speed motor, machines with lower hydraulic flow can still split the big stuff productively.

Commonly Used By:

- Large Land Clearing Companies
- Mulch Producers (Large)
- High Volume Firewood Processors
