HF-800 CONE SCREW SPLITTER WITH INTEGRATED GRAPPLE

The HF-800 is the absolute beast of our splitter line-up. Pair it with a 360 degree rotating grapple and you have a complete splitting solution.

HF-800 Hands Free Cone Screw Log Splitter

Now you can have the best of both worlds! U.S. Pride is now building and shipping our integrated HF-800 (1 or 2 speed) cone screw splitter with integrated 52 inch rotating grapple. Combining the two attachments into one package allows one operator to split, move and position logs without changing attachments or getting help from a second machine and operator. The new U.S.A. made grapple rotates 360 degrees allowing easy loading and positioning of logs for stacking or further processing in a horizontal grinder or chipper.

Both HF-800 splitters remain the same great splitters that they have always been. Specifications and productivity of the HF-800 one and two speed splitters are unchanged. This new splitter/grapple package should boost your productivity and minimize the number of operators needed on the job!

*Patent Pending

Specifications: HF-800

Splitter Weight - lbs.....	1,600
Cone Size - length x base	32 x 16
Max Split Size.....	20' in length
Oil Quantity - gpm.....	45
Oil Pressure - PSI.....	3,500 - 4,500
Carrier Weight - lbs.....	12,000 - 62,000
Torque - ft-lbs.....	15,000
Grapple Size - Inches	52
Grapple Rotation - Degrees	360
